### **Superintendent of Schools Report**

To the Superintending School Committee and  
Citizens of Warren:

As required by law I submit the following report of the schools of Warren:

For a second year there have been no changes in the grade and rural teachers, all of whom are town teachers, and all are faithful and efficient, interested in their schools and this community.

Mr. Maxcy has remained for a third year as principal of the High School. Mrs. Gardner, whose services as assistant have been invaluable to the school for the past five years, resigned at the close of the year to accept a position at Thomaston High School. Miss Eleanor Goodwin, a graduate of Bates College, who has done practice teaching in Camden High School with unusual success was secured for this position.

The work of every teacher in town is known and appreciated.

There have also been no changes in transportation the past year except in the case of one child, who part of the year was transported by her parents. Except the town owned bus all conveyances are very satisfactory. The town bus is a 1927 Model T Ford and is likely to come to expensive repairs at any time. The past year it has cost for

driver and repairs on the Highland-Mt. Pleasant route but \$16.60 a week which is more than \$10.00 a week less than it has cost on this route in some years.

The past four years there have been three grades at the Grammar school. This has been unsatisfactory as pupils cannot be given the time that they should have, when there are 45 or more pupils in three grades under one teacher, even tho as efficient as is Mrs. Mathews. Up to four years ago there have, so far as I know, never been more than two grades in the Grammar school. This change to three grades had to be made when the lower grade rooms became so crowded that an extra grade was moved to this school. The coming year the grade to leave the Grammar school for High school has but 11 pupils, while the entering grade has 23 which would make the number in Grammar school 57 pupils. Something must be done to relieve this situation.

The Middle Road school which for the past seven years has been taught by Mrs. Tarr at her home will be closed at the completion of the present school year. Excellent work has been done by Mrs. Tarr and the pupils of this school and it has always been a real pleasure to see such unusual progress of a small group.

There has been but one meeting for all teachers of both Warren and Union the past year. This meet-

ing was held at Warren with Principal Joseph E. Blaisdell of Rockland and Miss Mildred Merrifield of Union as speakers. At the grade meetings for the remainder of the year "The Improvement of Reading" by Arthur I Gates, the author of our basal readers, and other books have been read and discussed.

### REPAIRS

The repair work for the past year was largely outside painting. The Pleasantville and Mathews Corner buildings were each painted two coats. This work was done by Wilder Moore, the lowest bidder, for \$37.80 for each building, labor and paint.

The coming year the repairs should be inside work. Nearly every room needs paint and paper.

In closing this report I wish to acknowledge the unusual interest of many parents in the welfare of schools. The courtesy and cooperation of Selectmen has been indeed appreciated. Sincere appreciation is also expressed to teachers and girls and boys who have largely made the schools the success that they have been. I am especially grateful to the Members of the School Committee for their unfailing interest and help in solving the many school problems that have arisen the past year.

Respectfully submitted,

FRANK D. ROWE,  
Superintendent of Schools

### **Report of Music Supervisor**

Supt. F. D. Rowe:

At your request I submit the following report:

The program that I have been following this year has been practically the same as it was last year. There has been chorus singing in the High School one period a week. Each grade school has been visited once a week. Grades 1, 2 and 3 have separate classes, while grades 4 and 5 and grades 6, 7 and 8 are combined for music classes. It has been difficult for me to visit the Pleasantville and Middle Road schools as often as I would have liked, but the interest in music in these schools more than repays me for each trip to these outlying schools.

The work in each grade is as follows: Grade 1, rote songs; Grade 2, rote work and reading the very simplest songs; Grade 3, reading songs with occasional rote songs. Grade 4 and 5 continued reading with a few rote songs. Grades 6, 7 and 8 are singing one part, two part and three part songs. The books used in Grades 4 and 5 were changed this year for one more suitable for Grade 4. We paid for these books with money earned last year at the operetta presented by the grade schools. More of the money earned at that time was used to buy "My Weekly Readers" for all grade schools.

It is my hope and aim that each child will obtain from their music teaching sufficient interest in music to want to sing, to sing intelligently and to enjoy himself in so doing.

Respectfully submitted,

MARION M. CLARK,  
Music Supervisor.

**Report of High School Principal**

To the Superintendent, School Committee and  
Citizens of Warren:

Warren High School began the fall term of 1935 with an enrollment of 62, 4 more than last year, and the largest number of students in the history of the school. The attendance record for the first term was gratifying with 16 students neither absent or tardy during the fifteen weeks.

The School Committee was fortunate in securing the services of Miss Eleanor Goodwin as assistant. Miss Goodwin is a teacher of unusual ability and her work in all departments enables us to maintain our standards and continue our progress.

One new course, Problems of American Democracy, is being offered this year and we are grateful to the speakers who have made our assemblies, based on Citizenship and Vocations, successful. Warren High School is again on the list of schools approved by the New England College Certificate Board. The

(Page 110)

Honor Role made up of those students who maintained averages of B or better contained fourteen names during the first half year.

Our extra-curricula activities have been very successful this year. The Student Council has been reorganized and under the leadership of Albert Hill of the Senior Class is doing admirable work. Our fall baseball season gave evidence that we may look for as fine a spring season as we had last year when Warren High School won the championship of the Tri-County League. Twenty boys are Candidates for positions on the team. At present a large group is taking part in winter sports and each class is at work on a one-act play to be presented in February.

During the year several improvements have been made in the building. Four new toilets have been installed and during the summer the upper hallway was closed in adding greatly to the comfort and warmth of the recitation room during the winter months.

I wish to take this opportunity to thank the people of Warren and friends of Warren High School for the many manifestations of their good will and cooperation which have made this one of the most successful and progressive years in the history of the school.

Respectfully submitted,

HORACE P. MAXCY,

Principal.

Article 25. To see if the town will vote to raise the sum of \$200.00 for cutting bushes on unimproved roads or take any action relating to the same.

Article 26. To see what action the town will take in regard to the following ordinances:—

#### ORDINANCES RELATIVE TO CEMETERY FUNDS

WHEREAS the Town of Warren, Maine, has received many donations and bequests providing for the perpetual care of certain cemetery lots, and whereas in the future it is contemplated that more donations and bequests will be offered to the Town providing for the perpetual care of cemetery lots, and whereas the investment of the funds received have been kept separate and apart from each other whereby it is impossible for the Town to receive the greatest amount of income and interest therefrom, which it might otherwise receive if the moneys and funds were invested together, now for the purpose of managing the prudential affairs of this Town with special reference to the management of the Cemetery funds, the following by-laws or ordinances are hereby made by the inhabitants of said Town:—

SECTION 1. The Board of Selectmen shall have the authority to accept on and for the behalf of the Town donations and bequests to said Town of Warren for the purpose of providing perpetual care for cemetery lots; and the said Board shall have the control and management of all matters pertaining thereto and connected therewith. Said Board

shall have authority to direct the expenditure of and investment of cemetery funds and it shall be their duty to carry out the object for which funds are given with respect to each individual lot, and shall appoint and remove at pleasure a caretaker for said lots and prescribe his duties and compensation; and generally they shall have full authority to do and perform whatever may be requisite to carry into full effect the object for which said funds are given to the Town.

SECTION 2. The Treasurer of the Town shall receive all moneys appropriated by or donated to the Town accepted by it or by the Board of Selectmen on its behalf for the use of providing perpetual care for cemetery lots and shall keep a separate account thereof under the head of Town Cemetery Fund and shall pay out said moneys upon the order of the Board of Selectmen. In case where money is donated to the Town the income of which, or any portion thereof, is to be expended for the support of a cemetery lot and its care according to the terms thereof, the Town Treasurer shall invest the same under the directions of the Board of Selectmen; and in his annual report the Town Treasurer shall include a detailed statement of the receipts, disbursements and condition of the cemetery fund.

SECTION 3. Funds and moneys received by or on behalf of the Town for the purpose of taking care of cemetery lots shall be invested by the Board of Selectmen in the securities, or with deposit in

banks, as provided under Section 93 of Chapter 5 of the 1930 revised Statute of Maine, and in order that such investments may be made it is stipulated that moneys received by the Town for the purpose of providing care for cemetery lots may be kept in a general fund and not be kept segregated one from the other.

Article 27. To see what sum the town will vote to grant and raise to be expended and used for advertising the natural resources, advantages and attractions of the State of Maine or take any action relating to the same.

Article 28. To see what sum of money the town will raise to pay interest on town notes the ensuing year or take any action relating to the same.

Article 29. To see what sum of money the town will raise to pay outstanding notes or take any action relating to the same.

Article 30. To see if the town will vote to allow 3 percent discount on Real Estate Taxes paid before July 1, 1936 or take any action relating to the same.

Article 31. To see if the town will vote to authorize the Selectmen and Treasurer to procure a temporary loan or loans in anticipation of taxes for the purpose of paying indebtedness of the town, such

notes to be paid during the current municipal year by taxes.

Article 32. To see if the town will vote to reimburse and settle with W. Y. Piper for back taxes assessed and collected of him on property he did not own or take any action relating to the same.

Article 33. To see if the town will vote to raise funds to co-operate with the Maine Forest service and the Federal Government in the Control of the White Pine Blister Rust within the confines of the town or take any action relating to the same.

Article 34. To see if the town will vote to abate a portion of S. E. Norwood's tax on real estate for the years 1932, 1933, 1934, 1935 so that his valuation for the years named shall be equal to the valuation on the real estate in Warren which is similarly located. Also to see if the town will vote to give him the same amount of work with his truck as is given the other tax payers in proportion to the taxes paid or to see what action the town will take relating to the same.

Article 35. To see if the Town will vote to adopt the following plan as one of the plans for the purpose of collection of unpaid taxes. The plans to provide road work, school house and town hall repairs. To see what amount of money the Town will appropriate for the road work provided in this plan.

The amount appropriated under this article to be used on road work only, and as follows: (1) To pay for material; (2) Fifty cents in cash to be paid per day for men, the balance of a day's pay to go for payment on his unpaid taxes prior to 1936; (3) For truck and driver the cash payment to be \$1.25 per day, the balance of the day's pay to go as payment for his unpaid taxes prior to 1936; (4) The day or hourly pay to be figured at the same rate as on other road work in the town; (5) When no cash payment is required by one working under this plan, the full amount of work done will be credited to payment on unpaid taxes prior to 1936. This road work to be done on roads for which no money is received at present from the State.

The work to be done when convenient to those working under this plan not later than Nov. 1.

Should the appropriation prove inadequate to meet the cost of material, the cash payment and the full time payment of a road commissioner, the road commissioner may appoint a competent man who is working under this plan to keep the time, count of loads and to do the grading, etc., according to the road commissioner's instructions. The road commissioner may hire men and trucks to make up a convenient crew if necessary from among other tax-payers under the following regulation: (1) The work to go for the payment of taxes; (2) This work to be divided equally among tax payers and divided into four day shifts.

(Page 132)

The Selectmen give notice that they will be in session for the purpose of correcting the list of voters at their office in the town house at nine o'clock in the forenoon on the day of said meeting.

Given under our hands at Warren this eighteenth day of February, A. D., 1936.

A. M. HILT,  
E. E. GAMMON,  
C. M. SPEAR,

Selectmen of Warren.

## Selectmen's Report

---

Your Selectmen hereby submit the following report for the year ending February 6, 1937:

In the Snow and Ice Removal account the entire expense for the present winter is for labor erecting snow fence \$50.27 and sand and sanding ice \$199.71 or a total of \$249.98. There being no snow to plow which is an unusual occurrence.

In the Bridge Department the expense of strengthening the Upper Falls Bridge during the flood in March including labor and material was \$80.00 and removing the bridge later \$23.20. The repairs on the Fuller Bridge caused by the flood was \$92.80.

The expense to the town of the floating bridge to replace the Starrett bridge was \$60.65, a large part of the labor being given by those living in that section.

The expense of rebuilding the large culvert near the fish house \$75.75 and the whole expense of the Village bridge \$268.25.

In regard to rebuilding the Starrett bridge a special town meeting was called and the entire matter was left with the Selectmen who by appointment met the W. P. A. Officials and the State Highway Commission at Augusta, April 29, 1936 to discuss the matter of reconstruction. The result being that an agreement was executed Oct. 7, 1936 with the

(Page 6)

Commission whereby a new bridge would be constructed by Federal, State and Town funds at an estimated cost of \$16500.00 including approaches; the Town's share of the expense being \$2800.00.

As very few repairs have been made on the wharf at the fish house for a long time, it was necessary to rebuild the same using all new material, the whole expense being \$673.78.

During the last few years the expense in the Poor Department has far exceeded the appropriation.

It has been proposed by several of the Taxpayers that possibly they could be cared for at less expense on a town farm under proper management. We have therefore inserted an article in the Warrant and would suggest that the matter be given careful consideration before any final decision is made.

UNITED STATES DEPT OF AGRICULTURE  
Bureau of Entomology and Plant Quarantine  
Washington, D. C.

146 High Street, Belfast Me.,  
January 28, 1937.

To the Board of Selectmen and Town of  
Warren, Maine

Gentlemen:

The following is a report of white pine blister rust control work conducted in your town in 1936.

No. of men employed	25
No. of acres of land eradicated	3,483
No. of currant and gooseberry bushes removed	804,017
No. of man hours worked by the crews	10,566
Cost of eradication work to the Federal Government	\$4,943 03

All funds for this work were furnished by the Works Progress Administration.

Blister rust was prevalent in the areas worked. This was due to the large number of currant and gooseberry bushes found within infecting distance from the pine. Blister rust is a real menace, and must not be taken lightly. Infection conditions on unprotected areas are increasing. Many pine lots show infection that will mean severe losses. Other pine lots appear healthy to the inexperienced eye

(Page 125)

but we know from experience that the disease is present, and will rapidly become worse if not given control measures.

It is hoped that arrangements can be made to continue the eradication work in your Town in 1937.

Very truly yours,

H. G. BRADBURY, JR.,

Chief Scientific Aid,  
Plant Disease Control.

As required by law I submit the following report  
of the schools of Warren:

The past year has been one with no outstanding progress, but schools have carried on well for the money expended. This is largely due to the unusual interest and co-operation of citizens, parents, members of the school committee, teachers and girls and boys that have been shown on every hand in all school work and in all school activities. This interest was especially shown during Education Week when our schools were visited by over three hundred busy parents and citizens.

For the past four years Mr. Maxcy has been principal of the High School and Miss Goodwin returned for her second year. High School under these superior teachers has been a decided success. It has been a pleasure to visit their classes and enjoy their excellent teaching and the fine spirit of co-operation on the part of teachers and students.

For still another year we have had at the High School building the unusual services of Mr. Teague as janitor. His care of the building and the time devoted to his duties need only to be known to be appreciated. He has the esteem and respect of teachers and girls and boys.

Parents no doubt realize how fortunate are our grade schools also to have so many faithful town teachers. Did these teachers not live in town frequent changes in the teaching force would be necessary and the schools would suffer.

For another year we have been fortunate in having the services of Mrs. Marian Clark as Music director. The money received for the spring musical entertainment was divided among the schools taking part, \$17.00 for each school. With this encouraging amount the Grammar school started a piano fund and soon an upright piano was secured at a cost of \$35.00.

The Middle Road school, which for the past seven years has been taught by Mrs. Tarr at her home, was closed this fall and the four grade pupils who have attended this school have been conveyed to the village schools. Permission to have these few grade pupils taught at the home of Mrs. Tarr was granted by the State Department of Education, and so well did the children progress under her able direction that the arrangement was permitted to continue until this fall, when the number of pupils was reduced from six to four. To visit this school has been a joy and privilege that I shall never forget.

For the fall term at Highland school Miss Mildred Farris of Union, a graduate of Miss Wheelock's Kindergarten School of Boston, was secured. She

resigned, however, at the close of the term to accept a position in Augusta. Hubert Ross of New Sharon, an experienced teacher, who has had training at Farmington Normal School and Bliss Business College, was finally secured for the winter term. It was difficult to secure a teacher for this school at the low salary paid. Altho teachers' pay has not been increased, living conditions have and Mr. Ross has left but \$8.00 a week after paying his board. Also he is obliged to board two miles from the school and drives his car back and forth. He too is very likely to secure a better position at the close of the term.

Five years ago, because of the crowded conditions at the Hinckley Corner and Mathews Corner Primary schools, the fourth grades were transferred from these schools to the Intermediate and the sixth grade was transferred from this school to the Grammar. So large would have been the Grammar school this fall, having the sixth, seventh and eighth grades, that the sixth grade had to be retransferred to the Intermediate school and the fourth grade returned to the Primary schools, as had been the arrangement for a long term of years, except the past five years. To have schools continue in this way it was necessary to have no pupils enter these Primary schools unless they had reached the age of six. Also to further relieve the crowded condition at the Hinckley Corner school the Highland school, which has been closed for the past ten years, had to be re-

(Page 130)

opened and the Mt. Pleasant pupils were conveyed to this school which has 25 pupils.

As last year, Mrs. Teague has continued to convey on the South Warren-Oyster River route; Mr. Saunders, on the Sterling-Stone; Mr. Starrett, from Vaughan Neck; and Mr. Robinson, from Libby. Mr. Overlock, who for several years has conveyed from Highland and Mt. Pleasant, has since the opening of the fall term conveyed the Mt. Pleasant pupils to Highland. Mr. Blackington has conveyed the Middle Road pupils to the village schools. All conveyances have been satisfactory and they have not been crowded. The town owned school bus which has been used for the past nine years has not been used this year because it needed unusual repairs.

#### REPAIRS

In addition to the usual repairs at all buildings, the Highland building was shingled on one side, the school room was papered and toilet shutters made. Nearly all buildings should have one coat of paint the coming year and the Highland building should have two coats.

#### CONCLUSION

I consider it a privilege to have been one more year associated, as Superintendent of Schools with the Citizens, Selectmen, Members of the School Committee, Teachers and Girls and Boys of Warren. I wish to express to Citizens my appreciation of their

support of schools and all school activities. The Selectmen I wish to thank for their uniform courtesy and kindness. I wish especially to express to Members of the School Committee my appreciation of their interest in schools and of their assistance in solving the numerous school problems that have been brought to their attention. To the Teachers and Girls and Boys I wish to express my appreciation of the genial atmosphere of their school-rooms which has been one of kindness, courtesy and willing effort and with this attitude on the part of all, the work of the Superintendent has been a pleasure.

Respectfully submitted,

FRANK D. ROWE,

Superintendent of Schools

168.1 average attendance this fall, 17.2 less than last fall, 8.1 less than five years ago, 28.3 less than ten years ago, 35.3 less than twenty years ago.

160 tardy marks in grade and rural schools this year, 27 less than last year, 105 less than 5 years

ago, 332 less than ten years ago, 877 less than twenty years ago.

128 grade pupils not absent at any session this year, 4 more than last year, 48 less than five years ago, eight less than twenty years ago.

65 students in High School this fall, three more than last fall, 13 more than five years ago, 14 more than ten years ago, 37 more than twenty years ago.

61 average attendance this fall, 4 more than last fall, 11 more than five years ago, 15 more than ten years ago.

32 tardy marks at High School this year, 11 more than last year, 80 less than five years ago, 99 less than ten years ago.

All school had 427 visitors this year, 90 more than last year, 18 less than five years ago, 62 less than ten years ago, 148 more than twenty years ago.

Note that twenty years ago there were 46 more pupils in grade and rural schools than this fall; and High School then had but 28 students, this fall 65. Twenty years ago there were during the year 1037 tardy marks in grade and rural schools, this year but 160. The schools having the best tardiness record this year, Middle Road, Grammar, Mathews Corner and Hinckley Corner.

### **Report of High School Principal**

To the Superintendent, School Committee and  
Citizens of Warren:

I am pleased to again submit to you the annual report of Warren High School.

Last June we graduated a class of eleven, nearly all of whom have at the present time found employment or are continuing their studies.

The fall term began with an enrollment of sixty-six, a very considerable increase over previous years. We were again fortunate in having with us Miss Eleanor Goodwin, a very able teacher, as assistant.

We have adopted this year a new schedule of classes which is a departure from the traditional forty minute recitations. Our new plan reduces the number of periods from eight to six and increases the length of the period to sixty minutes. In the school day we have five periods, the extra period beginning the next day. By rotating the schedule we have at least two hundred and forty minutes of class work in every subject each week as compared with a maximum of two hundred minutes under the old plan. The additional length of the class period gives the pupil an opportunity to do a large part of his studying under the direct supervision of the teacher.

Incorporated in this schedule we have each day a thirty minute Activities period which has been

helpful to us in carrying on our extra-curricula activities. This time is used for music, dramatics, Student Council, Club Work, assemblies and health.

I wish to take this opportunity to thank the many friends of Warren High School who have helped to make this a most successful year.

Respectfully submitted,

HORACE P. MAXCY,

Principal.

### **Superintendent of Schools Report**

To the Superintending School Committee and  
Citizens of Warren:

For another year schools have been maintained with efficiency, even at the low salaries paid, due largely to the facts; that all but one of our elementary teachers live in town and are unusually interested in their schools and community, and the finest of cooperation on the part of parents and citizens in every school activity. There have been the unusual number of 589 visitors in our schools the past year.

There has been but one change in our elementary teachers the past year. Mr. Ross who taught the winter and spring terms at Highland school secured another position during the summer and this school has been successfully taught by Miss Dorothy Miller of Lincolnville, a graduate of Gorham Normal School.

It was with sincere regret that in June the resignation of Mr. Maxcy was received. During the four years that he was principal of our high school it was a decided success and both Mr. and Mrs. Maxcy won the sincere esteem and respect of every student and this entire community. Like many other Warren High School principals he has gone to a larger school with every prospect of further success. We were most fortunate to secure as his successor, Walter Gay of Rockland, a Bates College

Graduate, who for two years had been English instructor and athletic coach at Bangor High School. Under the able direction of Mr. Gay and Miss Goodwin, whose services we are fortunate enough to have for another year, our high school is having another very successful year.

There have been no transportation changes the past year and conveyances and drivers have been very satisfactory.

For another year we have been fortunate enough to have the unusual services of Mr. Teague as janitor at the High School building. His care and interest in the buildings and pupils is indeed appreciated.

But \$200.00 was raised last year for repairs on school buildings, the smallest amount that has been raised for that purpose in many years. If school buildings are to be kept repaired and painted more money must be appropriated for repairs.

Unusual interest has been shown in the teachers meetings which were held during the fall term. The first was held September 10th when the High school teachers of both towns met and decided to study during the year "The Functions of Secondary Education" a recent publication of the National Education Association. September 17th the Elementary teachers met and it was decided that each teacher would read a professional book and give a report at a later meeting which was held December 3rd and a most interesting and helpful meeting it was.

(Page 102)

October 2nd all teachers of both towns met at the Union school building with State High School Inspector Lyseth and Superintendent DeCosta of Strong as speakers. Mr. Lyseth gave an address on personality and then held a conference with the High School teachers. Mr. DeCosta gave an illustrated address on drawing to all teachers and talked to the elementary teachers on penmanship. With the exception of the October meeting all meetings were held at the home of the superintendent.

In closing this report I wish to express to the Members of the School Committee my sincere gratitude for their unusual interest in the school problems that they are often asked to consider; also to express my appreciation to citizens, parents, teachers and friends who have helped to make the schools the success that they have been the past year.

Respectfully submitted,

**Frank D. Rowe,**  
Superintendent of Schools.

### **Report of High School Principal**

To the Superintendent, Members of the School Committee and Citizens of Warren:

As principal of Warren High School, I am pleased to submit the following report:

The high school started this fall with an enrollment of fifty-six students. Since that time two

more students have enrolled making the present student body fifty-eight in number.

The attendance for the first term was unusually high. The average attendance was ninety-five percent.

The gratifying results of the ranks for the first half year show that seventeen students have a general average of eighty-five or over in their studies.

Biology, a very practical and helpful subject, has been introduced into the curriculum for juniors and seniors. A weather bureau has been formed in the physics class. Two members are selected each week to forecast the weather.

The extra-curricula activities at the school have been quite numerous: the Student Council has planned and organized student assemblies; each class has presented a one-act play; a Girls' Handicraft Club has been formed and is doing very fine work; in the fall nearly all of the boys were playing baseball, while the girls were participating in soft-ball; a winter sports team is being organized to take part in the various winter carnivals.

Any success of the school or of its activities is due, to a large extent, to the helpful and cooperative activities of Miss Goodwin, who is a very fine teacher and invaluable assistant.

I wish to take this opportunity to thank the people of Warren for the fine, wholehearted coopera-

(Page 104)

tion that they have shown in supporting the activities of the school.

I also want personally to thank Mr. Rowe and the townspeople for the kindness and hospitality that has been shown to me. It certainly is a great pleasure to have a position in such a friendly, congenial community.

Respectfully submitted,

**Walter M. Gay,**

Principal.
